For Immediate Release

Doswell and Donati Join Savannah River Nuclear Solutions Executive Team

AIKEN, S.C. – March 31, 2011 – Two Savannah River Nuclear Solutions, LLC (SRNS) organizations now have new leaders at the level of vice president.

Effective April 4, Alice Doswell will be joining SRNS as Vice President for Environment, Safety, Health and Quality (ESH&Q). Ms. Doswell brings a wealth of leadership and operations experience to SRNS that relate directly to her new position. During her 13-years at SRS with the Department of Energy-Savannah River, Ms. Doswell served in numerous positions, including DOE Assistant Manager for Safety and Health Programs.

Ms. Doswell has also served as a senior program manager for BWXT Services, Inc., and since 2007 has worked as the ESH&Q Manager for Parsons, Salt Waste Processing Facility Project. She has extensive knowledge of nuclear operations and programs relative to national security, quality, safety, health and environmental management.

Ms. Doswell is a graduate of Mary Baldwin College where she holds a Bachelors of Science degree in Biology. She also holds a Masters of Science degree in Plant Sciences from Clemson University.

Also joining the SRNS executive team is Dennis Donati who will serve as Vice President, National Nuclear

The Savannah River Site is owned by the U.S. Department of Energy and is managed and operated by Savannah River Nuclear Solutions, LLC.

Security Administration (NNSA) Programs. Mr. Donati will be responsible for approximately 1,500 employees who support Tritium Operations; the Waste Solidification Building construction project; and the Pit Disassembly and Conversion construction project.

Mr. Donati has spent the last 30 years of his career with Honeywell where he held a series of strategic growth, operations and program management positions in the Defense & Space divisions. He has widespread experience in strategic marketing, planning, and pursuing initiatives along with financial, operations, and Voice of the Customer responsibilities. Most recently, he was the Director of Program Management, National Aeronautics and Space Administration (NASA) Business Segment in Phoenix, Arizona.

He holds a Bachelor of Science degree in chemistry from the University of Florida.

Savannah River Nuclear Solutions, LLC, is a Fluor-Daniel Partnership comprised of Fluor, Newport News Nuclear and Honeywell, responsible for the management and operations of the Department of Energy's Savannah River Site, including the Savannah River National Laboratory, located near Aiken, South Carolina.
